Mrs. Ida Larabee, a life-long resident of Barnard, died of apoplexy at her home, where she lived alone, in that village sometime Sunday night or Monday morning. Late in the forenoon her body was found in bed, with no evidence of a struggle and her death probably was instantaneous and painless.

Green Mountain Hotel Bought By Asa Picard, Who Plans Changes.

One of the largest real estate deals for some time put through was that whereby the Green Mountain house, otherwise known as "The Little Hotel," became the property of Asa Picard and the Picard home on Randall avenue came to William Goodwin, both sales being under the Carroll agency. Mr. Goodwin has for 13 years handled this hotel in a way pleasing to all and many will regret his leaving the same. This place is one of the old landmarks. Mr. Goodwin is the son of Hunt and Hunt of Robinson. King Herick owned it for a long time and it was run by Jeremiah Brown for many years. The commercial men have for sometime patronized this place. Mr. Picard came to town first in the bakery which he greatly improved and carried on successfully. Later he sold this and has been in Hotel Vermont and southern hotels. Mr. Picard expects to begin outside painting at once. He will re-furnish the entire house and plans to have a hotel which will be up-to-date in every way. The fact that the Goodwins are to remain in town is good news.

"MEANEST THIEF"

Sentenced for Theft of Collapsible Drinking Cup.

New York, Aug. 8.—Jacob Berman was denounced as "the meanest thief" ever arrested by the police and then sentenced to ten years in Sing Sing prison by Judge MacMahon for the theft of a collapsible drinking cup worth about ten cents. Berman was charged by the police with preying on shop girls, stealing their pennies and sandwich lunch packages.

Tourist Tips.

If there were not road hogs, garden hogs, campground hogs and otherwise ruthless tourists, via the flivver route, there would be no need for any set of rules and regulations for the Maine camper. But the exceptions in this case, as in schools and other institutions, make necessary hints to the unwise and careless.

One of the best drafts of this order comes from the Bangor News of recent date, which takes the form of a questionnaire, with the following items which may well be perused by users of Maine highways for day or week-end or vacation excursions:

Are you a careful driver or do you minimize the enjoyment and endanger the lives of your own party and of your fellowmen by the careless handling of your car?

Do you camp on private grounds, eat your lunch in people's doorways and get water from their wells without asking permission?

Do you rob gardens, hen roosts and fruit trees as you go along, or pay decently for the food you consume?

Do you trample fields of grain and hay in your enjoyment of rural scenes?

Do you destroy trees ruthlessly to provide firewood?

Do you build fires where they may do damage, and fail to extinguish them perfectly when you leave them?

Do you leave tin cans, old papers and refuse strewn around when you leave camp, or do you dispose of them neatly and in a sanitary manner, so that the spot which tempted you by its green freshness when you came upon it may offer a like prospect to those who come after you?

Are you courteous in your inquiries as you expect courtesy in answer?

In short, are you the kind of person who deserves the hospitality and happiness which you seek along the highways, or are you the sort of person who puts the whole race of summer tourists in disrepute?—Lewis Journal.
